PROFILE

Enthusiastic Full-stack Developer with a background in Electronics and Communication Engineering and practical experience in full-stack development. Proficient in Python, HTML, SEO, CSS, JavaScript, PHP and Django, with solid experience in converting static sites to dynamic ones. A fast learner and problem-solver, eager to contribute to real-world projects that make a difference.

EXPERIENCE

BLOOM IT SOLUTIONS   April **2025** – July **2025**

Role: Full-Stack Developer Intern

- Designed and developed dynamic websites using HTML, SEO, CSS, JS and PHP.
- Converted static HTML pages into PHP-based dynamic web applications using MySQL for backend storage.
- Developed admin dashboards, landing pages, and complete websites for various companies
- Used GitHub for version control and collaborative development.
- Designed Websites Using Frontend Technologies

PROJECTS

1. Bloom IT Solutions (Static Website)
(Role: Front-End Developer)

- Built web pages using **HTML, CSS, JavaScript.**
- Developed a professional, static company website to represent Bloom IT Solutions' core services in Software Development and Digital Marketing.
- Integrated company branding and messaging into the web layout, highlighting innovation, trust, and tailored business solutions.
- Created SEO-friendly and responsive designs to enhance online visibility and user engagement across all devices.

2. Raanvi (Brand Representation)
(Role: Front-End Developer)
- Designed and implemented front-end web pages for Raanvi International's organic product platform, integrating with an existing backend system.

- Focused on clean UI layout and user-friendly navigation to effectively showcase wellness and daily-use product offerings.
- Utilized HTML, CSS, and JavaScript to create responsive and visually consistent pages aligned with the brand's focus on natural living and healthy lifestyles.

3. SMC Chit Funds
(Role: Front-End Developer)

- Designed and developed the official website for SMC Chit Funds to promote their financial services, savings schemes, and investment plans.
- Ensured a responsive and user-friendly layout using HTML, CSS, and JavaScript, enhancing accessibility across all devices.
- Integrated company branding, trust-focused messaging, and clear navigation to build credibility and improve user experience.
